Eagala's research committee has created this list of research and regulatory guidelines for national and international members as a resource.

Eagala
The Global Standard for Equine Assisted Psychotherapy & Personal Development

ClinicalTrials.gov
- Registration of clinical trials is mandatory in the United States (US) to comply with federal regulations and publication requirements.

European Medicines Agency (EMA)
- A decentralized agency of the European Union responsible for the scientific evaluation, supervision, and safety monitoring of medicines.

Good Clinical Practice (GCP)
- An internationally recognized set of ethical and scientific quality standards for designing, conducting, recording, and reporting clinical trials involving human subjects. GCP guidelines also provide regulatory requirements and resource tools.

Google Scholar
- A research tool that provides access to scholarly articles, books, theses, and other academic works across various disciplines and sources, making it useful for protocol references.

Government of Canada-Interagency Advisory Panel on Research Ethics
- Canada's three federal research agencies, CIHR, NSERC, and SSHRC, jointly created the Interagency Advisory Panel on Research Ethics (the Panel) as part of a collaborative effort to promote the ethical conduct of research involving human participants.

International Harmonization (ICH)
- Provides internationally accepted guidelines and standards for clinical trial conduct.

National Institute of Health-USA (NIH)
- The NIH Offers guidelines for conducting clinical trials in the US, including policies on data sharing.

Office of Research Integrity (ORI)
- Part of the U.S. Department of Health and Human Services, the ORI oversees Public Health Service (PHS) research integrity activities, except for the regulatory responsibilities of the Food and Drug Administration (FDA).

PubMed
- A free, searchable database from the National Library of Medicine (NLM), containing over thirty-seven million citations and abstracts in biomedical and life sciences literature.

Equine Assisted Growth and Learning Association (Eagala) provides general research guidelines solely for informational purposes to Eagala's membership. Study specific inquiries, including but not limited to ethical considerations, current regulatory requirements, safety oversight, and policy adherence, should be directed and managed by your local, regional, and/or federal research authorities.
